

## MARATHON FOR BOXERS

### WUNDERLICH WINDSHIELD »MARATHON« FOR THE BMW R 1250 R

BMW motorcyclists from a wide range of models who want effective wind and weather protection rely on the long-proven »MARATHON« windshields from Wunderlich. They shine through their ergonomics, the protective effect as well as distinctive long-distance comfort and ensure relaxed driving and thus - besides - for more passive safety. Especially on long distances and at high speeds. They are basically characterized by their aerodynamic construction, their mechanical stability and their integral model-specific design with high recognition value. The Wunderlich-typical high-quality workmanship and experience can be seen when looking through: Clear view, without distorting optical errors that irritate. Another hallmark: the hand-polished edges of the windshields, which make separate edge protection unnecessary, and the easy installation, which Wunderlich attaches great importance to in all components.

It goes without saying that Wunderlich, as a separate and independent specialist for high-quality BMW motorcycle accessories, also develops a suitable model-specific windshield for the roadster of the 1250 ShiftCam Boxer series, the BMW R 1250 R. A windshield that does not take away the character of the popular roadster, but rather emphasizes it with its integrated shape. The »MARATHON« ensures optimal relief from wind pressure for the head, upper body and shoulders and significantly less turbulence even on longer tours with the Roadster. This means that it fully exploits its full potential over long distances and in all weather conditions. With the vibration-decoupled 4-point attachment, it is optimally aerodynamically aligned. It offers maximum protection and perfect ergonomics for every body size.

Wunderlich offers the »MARATHON« windshields either in transparent (Item-no.: 30450-235) or in smoked grey (Item-no.: 30450-236). The Graftschafter developers have thought of everything for the installation of the »MARATHON« windshield: If the machine is not equipped with the original bracket, they also offer the appropriate bracket (Item-no.: 30450-230).

Further technical data:

- With German Type Approval (ABE)
- Material: Robust, optically pure PMMA acrylic plastic
- Width: 435 mm / Height: 480 mm / Thickness: 5 mm

The price of the two »MARATHON« windshield variants (Item-nos.: 30450-235 and -236) is € 189.90\* each. The windshields are Made in Europe and a German Type Approval (ABE) is included. You do not have to mention this any more than the generous 5-year warranty that Wunderlich grants to these windshields.

If the solid bracket, which with its shapely design is discreetly integrated into the cockpit design of the BMW R 1250 R, is required (Item-no.: 30450-230), its price is € 119.90\*.
